

ASSURA NURSING CARE • 安舒居家医疗护理

STRATEGIC BUSINESS PARTNER & INVESTMENT PROPOSAL (商业计划书)

1. Executive Summary & Investment Thesis / 发展愿景与投资亮点

Assura Nursing Care is Malaysia's premier tech-enabled, hospital-grade home healthcare platform. We deploy licensed Registered Nurses (LJM certified) and trained professional caregivers equipped with a proprietary cloud clinical operating system (MEWS scoring, digital MAR medication charting, wound staging timelines, tube expiry tracking, and digital procedure consent). Assura executes a prudent, cash-flow-positive phased roadmap: consolidating Penang & the Northern corridor in Years 1–2, expanding to Ipoh (Perak silver retirement corridor) and launching our physical Care Center in Years 3–4, and scaling to Klang Valley in Years 5–6. By implementing a Tiered Take-Rate (35–40% on procedures, 25–30% on shifts) and capturing 50%+ gross profit on consumables and rentals, Assura generates superior 34%–40% Net EBITDA margins.
